- Fitch Upper Loop (0.7 mile)

Welcome to the KU Field Station

This area is dedicated to field-based studies in which scientists conduct diverse research on plants, animals, soils, water and the atmosphere. The site also provides a rich arena for innovative teaching. These nature trails allow limited access for the public to enjoy and learn about the natural environment.

- Trails are open dawn to dusk only. No overnight parking or camping.
- Foot traffic only. Skateboards, bicycles and motorized vehicles are prohibited.
- Stay on the marked trails. Do not enter research areas or private property.
- Dogs or other pets are not allowed (even if leashed). Pets may transmit/contract disease, or disturb wildlife and research
- Do not release wild or domestic animals or plants. This disrupts native ecosystems and research studies.
- Hunting or collecting of any kind is strictly prohibited.
- Do not disturb flags, markers, traps or equipment. These materials are used for research and must be left alone.
- Smoking, fires of any kind, and fireworks are prohibited. Firearms and paint ball guns are prohibited.
- Alcoholic liquors and cereal malt beverages are prohibited.
